**Product:** PrivateWire Client

**Subject:** Can't remove the proxy configuration after defining the proxy in PrivateWire Client.

### **Summary:**

After adding a 'Proxy' into PrivateWire Client and then wanting to remove this configuration, the check box can't be unmarked.

### **Workaround:**

In order to overcome this problem, the following entry in the registry needs to be changed in order to remove the proxy:

-----  
[HKEY\_CURRENT\_USER\Software\ARL\ARCryptoIP Client]  
"HttpProxAddr"=-  
"HttpProxPort"=-  
"HttpProxAuth"=-  
-----

### **Applies to:**

- PrivateWire Client versions 3.0 and up
